

HOW To Survive homework?

-WHAT CAN YOU DO IF ITS DIFFICULT?

We all know that homework can be hard sometimes, But we get through it,we “survive” it,and you can find advice hw to survive it in this presentation.

-First you can get help from your teacher

-You can also ask your friends for help

-You can use some help from the book

If your homework is difficult its always better to get help then to cheat.

-WHAT ABOUT WEEKENDS?

In my opinion I think that we(students)shouldn't get homework on weekends,but if teachers think that we need it we should do it.

-If we get homework on weekends we can get through it if we take some time from our other plans because school is very important.

-WHEN SHOULD YOU DO IT?

-Sometimes its better to do your homework earlier so you have more time to do other activities after.

-It is best if you do your homework on timewhen your teacher tells you or sometimes it won't count.

For you to survive homework you dont have to worry about it you will get trough it even if it is hard.

If you need help don't be afraid to ask, but don't take help fo granted.

GOOD LUCK!
